

# Ranger Campus

📍 SunChild EcoTours

👤 SunChild EcoTours

The Ranger Campus is our newest addition to the tourist accommodations we have in the Caucasus Wildlife Refuge (CWR). The Ranger Campus is located only 9km away from the Eco-Lodge, with all necessary amenities and comforts for a great stay. We are excited about the new opportunities we'll have to show you even more of the beautiful landscape from an impressive, vantage point in the refuge where you can see wild birds soaring through the sky as soon as you wake up. This eco-friendly building is equipped with solar panels, locally-drawn water, and waste-treatment conducted with our personal water system. The sustainability and conservation goals that we have for our organization are realized not just through the projects or [activities](#) we work hard on but also through the special facilities we have built with these important goals in mind.

In the Ranger Campus we can offer 4 spacious rooms, with a maximum number of 7 guests. There are 3 Twin Rooms, 1 Single Room, and 2 shared bathrooms and toilets. The kitchen is fully equipped with all new appliances and the common room can be used for hosting events with a capacity of 20 people. Your meals

will be cooked by local women from the Urtsadzor community who will show you how delicious traditional, organic Armenian food can be. You will have free WiFi for your entire stay, so you can continue to be connected with your close ones, though we hope by the end of your time with us, everyone you meet will feel as close as family and friends.

Inside this modern lodge, it will seem as if you have taken a step into the future, catching a fleeting glimpse of what it would be like to live in an eco-friendly home that blends seamlessly into the natural environment surrounding it. In the mornings you will be awoken by the sounds of wild animals roaming the hills and, in the night, you will get to see the various stars and constellations sparkling in the night sky. We guarantee that the adventures you will be going on with us will be the highlight of your stay in Armenia. You can book this trip with us knowing that your stay will directly benefit the wildlife in Armenia, who are supported by FPWC's conservation goals and numerous projects just like this one.

*In the Ranger Campus 1 we can offer 4 spacious rooms, with a maximum number of 8 guests. There are 3 Twin Rooms, 1 Double Room, and 2 shared bathrooms and toilets. The kitchen is fully equipped with all new appliances and the common room can be used for hosting events with a capacity of 20 people.*
