Horses: local and limited English breed
Group size: 2-12
Weight limit: 110 kg (240 lbs)
Languages: Armenian, English, and Russian
Price: 10.000 AMD

Your horseback ride on hidden trails starts from a smaller hamlet near the historically crucial Odzun community. If you are for the first time in the Lori region we will also visit the Holy Virgin church, located in the very center of Odzun, since the 6th-century structure is imposing as a vivid example of an early Christian basilica. You will leave the countryside and ride along farming lands to enter the forest. Some challenging rides along wooded hillsides take you to enjoy the breathtaking scenery. Then the hidden trails will take you to an admire-impressive hillside lake, locally called Chill Gol. You will enjoy your picnic lunch and spend some leisure time communicating with mountain people to get acquainted with the local lifestyle and customs. Next, your descending paths will lead through woods and wildflower fields towards hidden falls, which are tucked between rocky cliffs to a height greater than 7 meters. Eventually, your scenic trails lead you out of the forest and take you back to the stable.
