IRIS B&B

During this experience, you will prepare ghapama, a staple of Armenian holiday tables and even a song dedicated to it. You will start by stuffing the pumpkin with rice, various local dried fruits, and nuts. After the sweet combinations, you will place the pumpkin in the oven and let it cook before seasoning it with honey, raisins, and more nuts. This fragrant dish is not only filling and healthy, but will also surprise even the most picky gourmet.
