Relaxation And Anti-Stress Benefits

Interacting with animals has been shown to have numerous psychological benefits for children. Spending time with animals can reduce stress, anxiety, and feelings of loneliness. The soothing presence of animals, combined with the gentle act of feeding or petting them, promotes relaxation and emotional well-being. At Zoo Zoo Land, we provide an environment where children can experience these benefits first-hand, creating positive and lasting memories.

Wildlife And Conservation

Zoo Zoo Land at Victory Park is committed to animal welfare and conservation. We provide naturalistic habitats for our animals, ensuring their well-being and creating an immersive experience for visitors. Educational programs and daily talks offer insights into the lives of our diverse animal residents, fostering a deeper understanding and appreciation for wildlife.

Plan Your Visit

Zoo Zoo Land is open year-round, featuring seasonal events and activities. Your visit supports conservation efforts, helping protect endangered species and promote wildlife education.

Address

Azatutyun Avenue, Yerevan, Armenia
